

Understanding Your Official Transfer Evaluation

- In order to complete a bachelor's degree at Berklee Online, you will need to fulfill all of your program requirements successfully AND earn a minimum of 120 credits.
- All of your transferred coursework will appear as *TE under the notes column of the evaluation.
- Any credit bearing exam (AP, CLEP, A Level, etc.) will appear as *NE under the notes column of the evaluation.
- All external transfer credit has been recoded. You can match the coursework with your transcript(s) using the term field (Fall = 12/15/Year; Winter = 4/15/Year; Spring = 5/15/Year; Summer = 8/15/Year). Please see the [Transfer Credit Equivalency Chart](#) for more information on which subject each code corresponds with.
- Since Berklee Online operates on a semester system, all quarter credits have been converted to semester credits.
- The courses listed in first section of your degree audit are those specific to Berklee Online and your major. Because this coursework is so specialized, it is rare to receive transfer credit for the requirements in this section as it is difficult to find comparable courses from outside institutions.
- Sometimes when reviewing transcripts, the available description for a course is too vague for us to determine an equivalency. In these cases, students can fill out a Transfer Credit Reevaluation Request and provide a syllabus from the year they completed the course in order to be considered for additional transfer credit.
- Occasionally, a course that is less than three (3) credits may be transferred to fulfill a three (3) credit Berklee Online requirement. In cases where there is no additional credit to balance this, it creates a credit deficiency, causing the student to be short of the 120 credits required to graduate. Credit deficits will be notated in red in the bottom right hand corner of the program summary box on the first page of the Official Transfer Evaluation provided to you by the Transfer Team. For more information see the credit deficit section of our [Transfer Credit Policies](#).
- **Important Note on Math/Science Requirement:** some course prerequisites require you to pass a math placement test with a score of 80 or higher. Regardless of your transferred credit in this area, if you do not receive the requisite score you will need to complete the Applied Math for Musicians course in order to fulfill the prerequisite.

Transfer Credit General Equivalency Chart

We are rarely able to award transfer credit for courses that are directly equivalent to those we offer, especially for general education requirements. To help you better understand how your previous coursework transferred, please reference the chart below.

Course Code	Course Name	Types of External Courses
OCOMP-COMP	Composition Transfer	A composition course that is not directly equivalent to a course offered at Berklee
OCWPR-ARR	Arranging Transfer	An arranging course that is not directly equivalent to a course offered at Berklee
OEART-EAR	Ear Training Transfer	An aural skills, solfege, and/or musicianship course that focuses on ear training but is not taught using the Berklee method
OGUIT-GUITAR	Guitar Transfer	A guitar course that is not private instruction or an applied music lesson and is not directly equivalent to a course offered at Berklee
OHARM-HRM	Theory/Harmony Transfer	A traditional or contemporary theory and/or harmony course that is not taught using the Berklee method
